

# Quiz System

Rishabh Jain

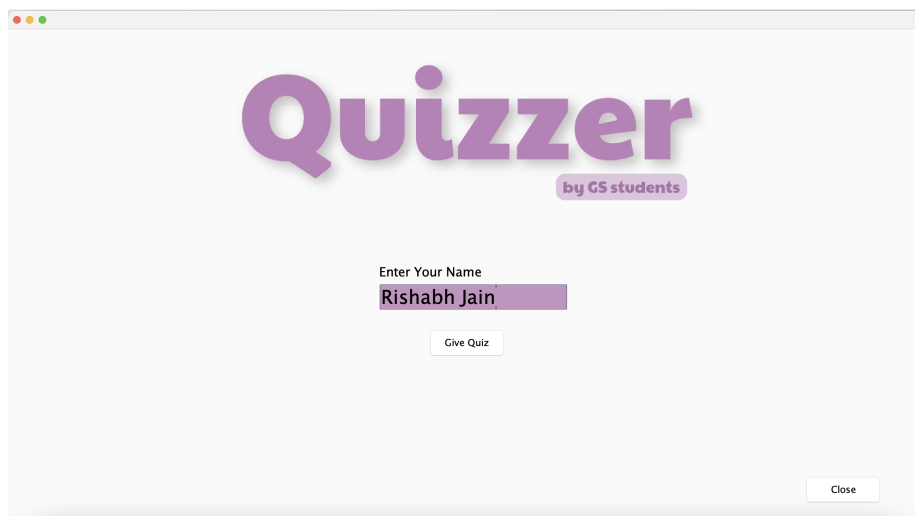

November 1, 2023

The provided Java code constitutes a Quiz project aimed for taking Quiz. In this project, three Java classes were used: Login, Score, and Quiz. The Login class is responsible for handling the login page, the Score class manages the final score display, and the Quiz class handles the quiz questions and user interactions. Key functionalities include:

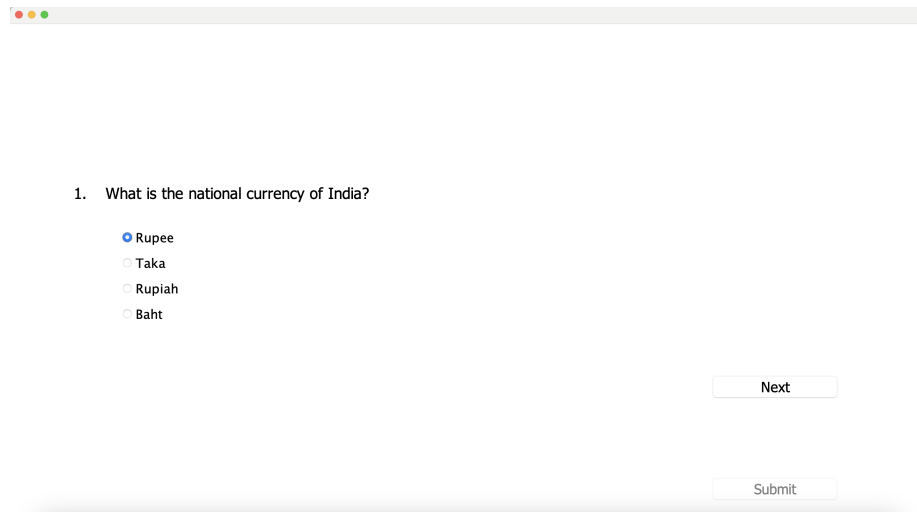

- Enter Your Name.
- Give Quiz of 10 questions.
- Your Total Score.

This program provides an interactive GUI for students to perform there Quiz effectively.

## 1) Login Page

## 2) Quiz Questions

A screenshot of a quiz application window. The window has a title bar with three colored buttons (red, yellow, green) on the left. The main content area is white and contains a single question: "1. What is the national currency of India?". Below the question are four radio button options: "Ruppee" (selected), "Taka", "Rupiah", and "Baht". At the bottom right of the window, there are two buttons: "Next" and "Submit".

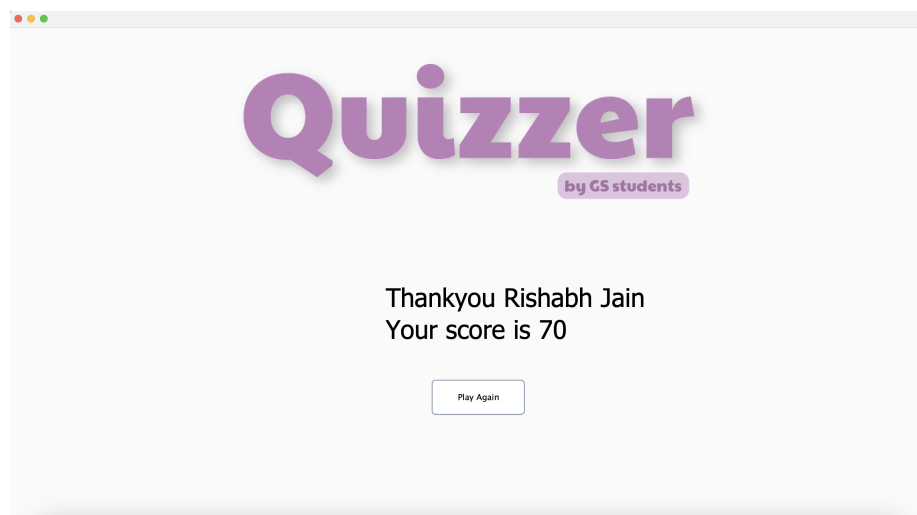

1. What is the national currency of India?

☒ Ruppee  
☐ Taka  
☐ Rupiah  
☐ Baht

Next

Submit

## 3) Final Score

A screenshot of the final score screen of the quiz application. The window has a title bar with three colored buttons (red, yellow, green) on the left. The main content area is white and features the word "Quizzer" in a large, bold, purple font. Below it, in a smaller purple font, is "by GS students". Further down, the text "Thankyou Rishabh Jain" and "Your score is 70" is displayed. At the bottom center, there is a button labeled "Play Again".

**Quizzer**  
by GS students

Thankyou Rishabh Jain  
Your score is 70
